

Bar Services

We are pleased to provide all of your alcoholic beverage and service needs. We hold full NCABC permits and can arrange for alcohol service at most any event or special occasion.

01. OPEN BAR

You are charged per adult over the age of 21 years old, per hour. Beer, wine, and mixed drinks are available. Mixed drinks include a full complement of sodas, mixers, and garnishes. Minimum of three (3) hours required.

02. CONSUMPTION BAR

We offer a full line of domestic, craft & import beers along with premium wines and spirits for all events. Choose from our selection, or allow us to create a list of the best options for your event. Charges will be based on actual consumption during the event and billed afterward. Mixed Drinks include a full complement of sodas, mixers, and garnishes.

03. PRE-PURCHASED ALCOHOL

Are you looking for a specific beverage or wanting to create a specialized menu? We're happy to help! We can pre-purchase beer and wine for you and whatever you don't consume goes home with you at the end of the night. We can combine this option with our Consumption Bar program in case you want to serve other options beyond the pre-purchased ones.

Please note: Beer and wine only for pre-purchase. Spirits are not available with this option.

RENTALS & GLASSWARE

Our bar services include clear plastic drinkware, or we can arrange for glass rentals through our preferred rental partners. At The Matthews House, we offer a complete line-up of bar glassware at a very competitive rental price.

STAFFING YOUR EVENT

We recommend 1 bartender per 50 guests for beer/wine, and 2 bartenders per 50 guests with spirits. Bartenders are billed at a flat rate \$275 per bartender for 8 hours including setup and cleanup. Hours beyond 8 are billed at an hourly rate of \$30 per hour.

KEEPING IT LOCAL

Southern Harvest pours premium beer, wine and spirits in all of our packages and supports our local craft alcohol producers. We are happy to work with you to have your preferred brands at your event - just ask!
